The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the Ministries of Foreign Affairs of the IAEA's Member States and has the honour to request that they draw the attention of the appropriate governmental authorities to the forthcoming **Technical Meeting on Atomic, Molecular and Plasma–Material Interaction Data for Fusion Science and Technology** to be held at the Daejeon Convention Center, Daejeon, Republic of Korea, from **15 to 19 December 2014**.

The purpose of the meeting is to advance data-oriented research on atomic, molecular and plasma–material interaction (A+M+PMI) processes and properties that are important for fusion plasma simulation, fusion plasma diagnostics and fusion energy technology. As part of this goal, the meeting is meant to promote collaboration among fusion energy researchers and researchers in atomic, molecular and materials science, raise awareness in the A+M+PMI community of the continuing need for A+M+PMI data to support fusion research, and highlight the contributions that can be made by the A+M+PMI sciences to fusion energy science and technology.

The attached Information Sheet provides further details of the meeting. This information is also available from the following web page: <https://www-amdis.iaea.org/meetings/AMPMI14/>.

The meeting will be held in English.

The meeting is intended for experts in the field who may be interested in participating. Participants should be researchers in the field of fusion plasma science or related areas in atomic, molecular or materials science. Member States are strongly encouraged to identify suitable women participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the meeting. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Such assistance may be offered upon specific request to normally one participant per country provided that, in the IAEA's view, the participant on whose behalf assistance is requested will make an important contribution to the meeting. The application for financial support should be made at the time of nominating the participant.

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in meetings, workshops or training courses or for consultants. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

Nominations should be submitted through the established official channels not later than **1 October 2014** for the attention of the Scientific Secretary of the meeting, Mr Bastiaan J. Braams, Division of Physical and Chemical Sciences, Department of Nuclear Sciences and Applications, IAEA, Vienna International Centre, PO Box 100, 1400 Vienna, Austria (Tel.: +43 1 2600 21731; Email: B.J.Braams@iaea.org). The full names and complete contact details (including postal address, telephone/fax numbers, and email address) of nominated participants should be provided.

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to assure the Ministries of Foreign Affairs of the IAEA's Member States of its highest consideration.
